

Feuerkugeln melden – IMO.net:

Links zur Meldung von hellen Meteoren:

<http://www.imo.net/>

<https://www.meteoros.de/themen/meteore/>

The screenshot shows the IMO.net website interface. At the top, the IMO logo (International Meteor Organization) is displayed against a starry night sky background. A navigation bar contains links for News, Photos & Videos, Observations, Resources, WGN, Shop, Conference IMC, About, Contact Us, and Join the IMO. The 'Observations' menu is open, showing two columns: 'METHODS' and 'FIREBALLS'. Under 'FIREBALLS', the 'Report a Fireball' option is highlighted with a red box. Below the menu, there are several article teasers, including 'Meteor Activity of the Week' by Robert Lunsford and 'Enhanced radio activity of 2016 Ursids' by Karl Antier.

The screenshot shows the 'Report a Fireball' page on the IMO.net website in German. At the top right, there are navigation links for 'Ereignisse', 'Berichte', 'Melde eine Feuerkugel', and a language dropdown menu set to 'Deutsch'. The main content area features a large heading: 'Melden Sie ihre Feuerkugelsichtung: Es ist ganz einfach!' (Report your fireball sighting: It's very easy!). Below the heading is a paragraph explaining that users should report bright and fast objects that look like large shooting stars. A list of instructions follows, including: 'Bitte melden Sie keine Ereignisse, die länger als 30 Sekunden gedauert haben.' (Do not report events that lasted longer than 30 seconds), 'Bitte melden Sie keine Ereignisse, die Sie schon mehrfach beobachtet haben.' (Do not report events you have already observed multiple times), and 'Bitte melden Sie keine langsamen, blinkenden Objekte oder wenn mehrere Objekte gleichzeitig sichtbar waren.' (Do not report slow, blinking objects or when multiple objects were visible at the same time). At the bottom, there is a blue button labeled '★ Jetzt starten' (★ Start now).

The screenshot shows the IMO website interface. At the top, there's a navigation bar with 'Ereignisse' and 'Berichte' tabs. Below that, a sidebar on the left contains the following information:

- Ereignisse in 2016 > 5381-2016** (highlighted with a red box)
- Die IMO erhielt 4 Berichte von einer Feuerkugel über Sachsen, Grand Est, Bayern und Bavaria am Freitag 30 Dezember 2016 - 0h18 UT.
- gleichtz. Geräusch: 2 nein
- späteres Geräusch: 1 ja, 2 nein
- Teilung: 2 nein
- Social media icons for Google+, Twitter, and Facebook.
- 4 Berichte**
- Report list:
 - a - Pierre L. Level 3
 - b - R Z. Level 4
 - c - Hartmuth K. Level 4
 - d - gee B. Level 3

The main content area features a map of Central Europe with several colored lines (red, green, blue) representing observation paths. A red box highlights the text 'mit Beobachtungsrichtungen' on the map. The map shows major cities like Frankfurt am Main, Nürnberg, Bamberg, and Regensburg.
